## SKILLS

Python, JavaScript, ReactJS, Redux, HTML, CSS, Pug, Flask, NodeJS, Express, Sequelize, SQLAlchemy, SQL, PostgreSQL

## PROJECTS

**MIGOS** ( Redux, ReactJS, NodeJS, Express, HTML, CSS, PostgreSQL, JavaScript )

[live](#) | [github](#)

*A single page Slack clone where users can create channels, messages*

- Utilized Bcrypt library to ensure secure, hashed passwords are stored into the database for each user
- Leveraged the Redux store to populate channels with messages by dispatching actions when switching between channels creating a smoother user experience when performing CRUD operations
- Configured NodeJS backend with Sequelize ORM to create database schema with proper model relationships that allows for simpler more effective querying

**FOODIE** ( ReactJS, Redux, HTML, CSS, Flask, PostgreSQL, Python, JavaScript )

[live](#) | [github](#)

*A Open Table clone where users can search for , reserve, favorite and write reviews for restaurants*

- Utilized React-load-script package to ensure Google Maps frontend script loads when the DOM is loaded allowing user to search restaurants in any location
- Integrated Google Map Places autocomplete feature on the frontend search bar to send longitude and latitude for a location to the backend, populating the homepage with appropriate restaurant results
- Designed homepage to render card components for every restaurant based on location searched, allowing user to easily navigate to different restaurants

**Picstagram** ( ReactJS, Redux, Python, Flask, JavaScript, PostgreSQL, HTML, CSS )

[live](#) | [github](#)

*An Instagram clone where users can create posts, comments, follow other users and interact with an explore page*

- Ensured authorized fetch requests to backend routes by sending CSRF token with requests to guarantee that the user is authorized to perform actions, such as: liking and posting photos
- Incorporated AWS S3 for file storage to allow for scalability when storing images
- Designed custom homepage styling using ReactJS components and CSS to render a simple, easy to navigate UI for the app

## EXPERIENCE

### Blender

*Zorocco Food Packaging Company*

Summer 2018, Summer 2019

- Ensured the safety and quality of products being blended and shipped, following proper sanitary protocols and working cross-functionally with the quality assurance team
- Developed and utilized beginner conversational skills in Spanish, working with bilingual coworkers
- Increased company revenue by maximizing time and operational efficiencies, increasing number of blends per day by 15%

### Floor Staff

June 2016 - Aug 2018

*Regal Cinemas*

- Received 100% on "checks" from corporate 10 months in a row, upholding corporate standards of cleanliness and overall customer experience satisfaction
- Earned "Employee of the Month", displaying leadership and adaptability while training employees
- Trained new employees to ensure cleanliness, operational excellence, and positive leadership qualities, resulting in enhanced customer satisfaction and a 20% decrease in wait times

## EDUCATION

**Web Development** - App Academy Online | June 2020 - November 2020

**Mechanical Engineering** - University of Idaho | Fall 2018- Spring 2020
